

LogiLink®

Portable Gas Detector

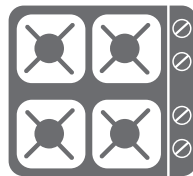

Art. No.: SC0104

Portable Gas detector ideal for Camping and barbeque to check gas leaks in heating and gas grill. Light-weighted easy to carry around.

Features:

- » Good for contractors and homeowners to check gas leaks in plumbing and appliances
- » Handheld natural gas detector is sensitive, reliable and easy to operate; detects natural gas (methane), LPG (propane and butane gas)
- » Compact and lightweight, easy to carry around
- » LED alarm indication: Red LED for High risk of explosion/fire; Yellow LED for Medium risk of explosion/fire; Green LED for No gas detected
- » Operated by 2 x 1.5V AA batteries

Hold the gas detector near the area you want to test. LED and alarm will sound if gas detected.

Specification:

Detecting Gas	Natural gas (methane), LPG (propane and butane gas)
Alarm Volume	≥75dB@10cm
Power Supply	2 x AA 1.5V Alkaline batteries
LED Indication	Green, Yellow, Red

LogiLink®

Portable Gas Detector

Art. No.: SC0104

Working Time	10 hours
Trigger Threshold	Low level alarm $\leq 5\%$ LEL High level alarm $\geq 10\%$ LEL
Operating Temperature	4°C ~ 40°C
Relative Humidity	10% ~ 90%
Alarm Types	Slow Alarm - 1 second repetitive alarm - low level of gas Fast Alarm - 0.25 second repetitive alarm - high level of gas

Package Contents:

- » 1 x Portable Gas Detector
- » 2 x AA 1.5V Batteries
- » 1 x Wrist Strap
- » 1 x User Manual

Package Informations:

- » Packing Dimension: 293 x 137 x 35mm
- » Packing Weight: 0.17kg
- » Carton Dimension: 640 x 310 x 160mm
- » Carton Q'ty: 30pcs
- » Carton Weight: 6kg

Warning

1. Ensure that the head of the detector does not come into contact with any dirt, liquids or grease.
2. To check that the device is functioning correctly, follow the manual instructions, release some gas from a lighter, and then hold the Gas Detector directly over the outlet.
3. The Gas Detector must not be opened or repaired by untrained persons.
4. Please remove the batteries when not using the Gas Detector.
